

Instructions:

- Make a list of big chores and small chores. For example, cleaning an entire room might be a big chore, whereas watering the plants might be a small chore.
- Consider the number of people living in the apartment and the number of big vs. small chores. Divide the big chores evenly among the number roommates, then evenly distribute the smaller chores.
 - Consider including a “week off.”
- Cut two circles, one large and one small.
- Add names of roommates to the small circle.
- Add the big/small chore combinations you created to the big circle.
- Attach the small wheel on top of the big wheel using a paper fastener or thumbtack.
- Turn the wheel once a week, always on the same day.
- Enjoy your clean apartment!
